DEFICIENCY BILL PASSES

The Senate Increases the Items and Adopts the Measure.

House Omnibus Public Buildings Appropriations Go Through-Mr. Pettigrew Changes His Mind-Mr. Clay on the Menragua Canal Again.

The Senate yesterday passed the last of the appropriation bills, the General De-ficiency measure. The measure as 40 passed the House appropriated big. 50,607. As reported from the Sonate Committee on Appropriations that same is increased by 11.57-195, making the total 214.79-225 As the bill was being read action was taken on the committee amendments and they were all agreed to. The bill covered

The principal lterm of increase are \$700. \$70 to pay indements of the Court of Chalme, \$25,735 for defletencies in the postal service; \$250.89 for the conjument of mival vessels, and \$15,100 for reimburse-ment of the Culain revenues for expenses theored in conducting the investigation of the receipts and expenditures of the Island under the Racon resolution.

The following amendment was offered by or. Gallinger and adopted: That of the unexpended balance of the appropriation for repairs to the Acti-duct Bridge. District of Columbia, the sum of \$1.05 may be used under the di-rection of the Secretary of War for the temporary protection of said bridge; and the further sum of \$5.00 may be used for obtaining plans and estimates for re-building said bridge, the said amounts to

se immediately available."
After the committee amendments had been disposed of the bill was open to gen-eral amendment. Numerous changes of an unimportant character were offered and most of them were ruled out on points of order. One amendment appropriating \$2.000 for the purchase of the copyright of the Government register and directory belonging to the estate of Hen; Perley Poore (formerly a Washington correspondent and committee clerk) was

then passed.

The House Omnibus Public Buildings bill was taken up and was opposed by Mr. Platt of Connecticut, who called attention to the fact that the bill increased by \$2,20,00 the cost of the buildings provided

Mr. Wellington to the bill while he had not resisted appropriations amounting to \$30,00,000.

It think," said Mr. Platt, "that one appropriations bill while passed the Senate carries \$5,000,000 less than it would have carried if I had not been on the committee which reported it."

Mr. Carter expressed the opinion that public buildings constituted the worst place for an attempt at economy. The appropriations of the present session, he said, were calculated to challenge the attention of the country, although the most strenuous efforts had been made to keep them down. It was true that the \$5,000,000 appropriation for the \$1. Louis Exposition might have been left out, but it was questionable whether it would have been sound public policy to have disregarded that great exposition. The pension appropriations had been larger than ever before, he declared.

Mr. Gallinger—Just the same.

Mr. Carter—But the number of private pension bills that have been passed in this Congress and I do not think we can make a record of comony by keeping down the appropriations for public buildings.

Mr. Pairbanks, Chalrman of the Committee on Public Buildings and Grounds, explained that the increase of the appropriations for public buildings and Grounds, explained that the house the Sundry Civil Appropriation bill, with Senational that he increase of the appropriations for public buildings and Grounds, and mr. Cannon asked that business was only an increase of the same decreased for by other legislation. Mr. Balley objected to the bill as being a dangerous precedent. Mr. Sperry called for a yea and nay vote and the bill falled.

Mr. McCarter—provided the most bill was passed.

The bill was then passed.

Ar. Allison, Chairman of the Committee on Appropriations, said that the Senate had reached a point in its business where a practical arrangement could be safely made. He proposed that at 5:39 o'clock in the afternoon a recess should take place till 8:20, and that at 10:30 a further recess should be taken till 3 o'clock today. That was nerved to by unanimous consent.

The Presiding Officer (Mr. Frye) informed him that there would be a morning system on Monday; but on Mr. Hoar's suggesting that this was the last legislative day of the session, the Presiding Officer corrected his first statement and said that Mr. Hoar was clearly right.

Mr. Pettigrew said he had not insisted on his resolution because he was assured he could have a vote upon it. He now asked for unanimous consent to have a vote.

Objection was made and Mr. Pettigrew declared that he would object to every other request for unanimous consent. He did so for a few minutes, but afterward, when Mr. Gallinger asked unanimous consent for the consideration of House bills, they were unobjected to.

In pursuance of previous notice Mr. Clay addressed the Benate in advocacy of a Nicaragua Canal bill.

At the close of Mr. Clay's remarks, the Senate proceeded to executive business, and afterward, at 5-20 tech. vote.
